

LSA SS26 Speaker Stand Assembly

ATTN: Tightening the top plate screws will take considerable force. Please make sure the correct screws are being used in a given point, and that the screws are vertical when installed.

- A) Screw the spikes (8) into the bottom of the piano finished board (6)
- B) Turn over the bottom board (6) and affix the oval tube (5) to it tightly by using the short screws (7)
- C) Insert the sand bag into the oval tube (5) for improved stability.
- D) Place the small, round aluminum tube (4) in the sunken circle on the bottom board (6)
- E) Place the top plate (2) on the support tubes and affix it with the longer supplied screws (1).
